WARRANT FOR ELECTION

COMMONWEALTH OF MASSACHUSETTS

November 8th, 1932.

Middlesex, ss.:

To John J. Buchanan, a Constable of the Town of Chelmsford.
GREETING:

In the name of the Commonwealth you are hereby required to notify and warn the inhabitants of said Town who are qualified to vote in elections to meet in their several polling places, viz.:

Precinct 1, Town Hall, Chelmsford Centre.
Precinct 2, Town Hall, North Chelmsford.
Precinct 3, Historical Hall, West Chelmsford.
Precinct 4, School House, East Chelmsford.
Precinct 5, Liberty Hall, South Chelmsford.
Precinct 6, Golden Cove School House, Westlands,

on Tuesday, the 8th day of November, 1932, being the first Tuesday after the first Monday in said month, at eight o'clock a. m. for the following purposes:

To bring in their votes for the following officers:

Presidential Electors.

Governor of this Commonwealth.

Lieutenant Governor for this Commonwealth.

Secretary for this Commonwealth.

Treasurer for this Commonwealth.

Auditor for this Commonwealth.

Attorney General for this Commonwealth.

Congressman for the Fifth Congressional District.

Councillor for the Sixth Councillor District.

Senator in the Eighth Senatorial District.

One Representative for the General Court in the 11th Representative District.

Two County Commissioners for Middlesex County.

Sheriff for the County of Middlesex.

And to act upon the following matters:

1. Acceptance of the following, "Law Proposed by Initiative Petition."
Proposed Law.

QUESTION NO. 1.

LAW PROPOSED BY INITIATIVE PETITION

Shall the proposed law which defines and legalizes the practice of chiropractics; establishes a board of registration of chiropractors and defines the number, mode of appointment, tenure, qualification and compensation of its members, and its powers and duties; provides for the prelim-

inary qualifications, examination, certification, original registration and annual license of chiropractors and regulation of their practice, and defines the mode, subjects of and fees for examination, the mode of practice and penalties; and other matters related thereto, which are chiefly as follows:

That chiropractic be "the science or practice of locating and adjusting by hand the malpositions of the articulations of the human spine."

That any person, with one preceding year's residence in this Commonwealth and with degree from a qualified chiropractic school received at least one year prior to the date when this law takes effect, may, within ninety days after such date, be certified by the board at its discretion without examination.

That otherwise no person, except a member of the board of registration, shall practice chiropractic unless, being over twenty-one years of age, of good moral character and graduated from a reputable chiropractic school after personally attending courses of at least twenty-two hundred sixty-minute daylight hours given to persons qualified to graduate from a public high school, he shall qualify by examination, pay a fee of twenty-five dollars and be registered and certified; except that any person licensed in another State maintaining standards equal to those of this Commonwealth may be registered without examination.

That the examination be scientific and practical in character, in subjects including anatomy, physiology, symptomatology, hygiene, sanitation, chemistry, histology, pathology, chiropractic analysis, and the principles and practice of chiropractic.

That the board may, after hearing, revoke a certificate for cause.

That the board shall make an annual report and shall keep public records of its proceedings and of the names of persons examined or registered by it and of the names and addresses of all registered chiropractors, who shall pay an annual license fee, promptly notify the board of any change in address and furnish such other information as the board may require.

That the board consist of three members, residents of the Commonwealth for three years, graduates of a chartered chiropractic school having power to confer degrees in chiropractic, to be appointed by the governor, with the advice and consent of the council, for a term of three years.

That the board have authority to administer oaths, summon witnesses and take testimony and adopt reasonable rules and regulations pertaining to their duties, and that they pay into the state treasury fees received by them, and that they receive compensation and reimbursement for expenses in such amounts as may be annually appropriated therefor not exceeding the amount of such fees.

Penalties are provided for practicing chiropractic without holding a certificate or for using the words "Chiropractic Practitioner", the letters "D. C.", or any title or letters indicating engagement in such practice, or for buying, selling or fraudulently obtaining any diploma or record of registration.

It is further provided that the present law relating to the registration of physicians and surgeons and providing penalties for the unauthorized practice of medicine shall not be held to discriminate against registered

chiropractors; but no chiropractor, unless registered as a physician or surgeon, may practice obstetrics, or administer drugs, or perform surgical operations by the use of instruments, or hold himself out as and for other than a chiropractor, *which was disapproved in the House of Representatives by a vote of 50 in the affirmative and 151 in the negative and in the Senate by a vote of 13 in the affirmative and 21 in the negative,* be approved

2. Law Proposed by Initiative Petition.

QUESTION NO. 2.

LAW PROPOSED BY INITIATIVE PETITION

Shall the proposed law which provides for an additional method of nominating candidates for nomination, at the state primaries in September, by members of political parties, for those offices to be filled by all the voters of the Commonwealth at a state election.

It provides that the state conventions of the political parties, in each state election year, shall be held before and not after the state primaries, as now, namely, not later than June 15. In order to elect delegates to such party conventions, party primaries are established to be held on the last Tuesday in April. Among other things, these state conventions may endorse candidates for office to be filled by all the voters and to be voted upon at the state primaries. Such endorsement places a candidate in nomination, at such state primaries, without the necessity of filing nomination papers. The name of the endorsed candidate is to be placed first on the ballot and against his name is to be placed, the words "Endorsed by (the name of political party) convention" in addition to the eight-word statement now authorized by law. Candidates endorsed by a party convention may accept said endorsement within ten days, and having so accepted may not withdraw.

It also provides for the election of district members of state committees and members of ward and town committees at the proposed party primaries in April, as well as delegates to the state party conventions, instead of at the state primaries in September, as now.

It also provides for the election of delegates to national conventions (to nominate candidates for President) at the proposed party primaries instead of at the primaries, now specially held for that purpose, and which existing law requires to be held on the last Tuesday in April (the same day proposed for the proposed party primaries).

It also provides for certain other new provisions of law and certain changes in existing laws, relating to holding state conventions and party primaries, the number and election of delegates to state conventions, the number of members at large of a state committee, and other matters, which in more detail chiefly are as follows:

State conventions are to be composed solely of delegates elected at the party primaries, and the number is to be one from each ward and town and one additional for every fifteen hundred votes or major fraction thereof above the first fifteen hundred votes cast at the preceding

state election in such ward or town for the political party candidate for Governor, instead of a number now fixed by the state committee of each party (not less than one from each ward or town) and certain members designated by existing law.

The time, for notice to the State Secretary by aldermen or selectmen of their determination to hold primaries by wards, precincts or groups of precincts, to be March 1, instead of August 1, as now.

The names of candidates for election for delegates to a state convention and for district members of a state committee to be arranged individually by alphabet instead of in groups arranged by lot, as now.

Vacancies in the office of delegate to a state or national convention not to be filled except in case of a tie vote, and then by delegates from the same district, within ten days, and if no other delegate or if not so filled, then by a state committee, rather than solely by the remaining members of the delegation; and statement of filling of such vacancy to be filed with the State Secretary.

Seating of delegates at state conventions to be in groups by senatorial districts, and order of business at said conventions defined.

Voting on candidates, by a convention, to be by roll call, if more than one candidate for the office, or by groups of delegates unless any member of such group objects.

The number of members at large of a state committee of a political party to be fixed by the state convention of a party instead of by the state committee as now.

The existing provisions as to preparation and filing of nomination papers, objections to nominations, preparation, number, substance, arrangement and form of ballots, hours during which polls shall be open, opening of ballot boxes, canvass and return of votes, return and certification of votes, now applicable to state primaries to be applicable to the proposed party primaries.

The power of a state committee to fix the number of district delegates to a national convention to be continued but the date, of giving notice to the State Secretary, of such fixation to be March 1 instead of on or before the third Wednesday in March, as now.

The power of city and town committees to fix the number of members of ward and town committees to be continued, but the date, of giving notice to the State Secretary of such fixation to be March 1, instead of August 1, as now,

which was approved in the Senate by a vote of 21 in the affirmative and 17 in the negative and was disapproved in the House of Representatives by a vote of 62 in the affirmative and 138 in the negative, be approved?

3. Proposed Amendment to the Constitution of the United States.

QUESTION NO. 3.

**PROPOSED AMENDMENT TO THE CONSTITUTION
OF THE UNITED STATES.**

Is it desirable that the proposed amendment to the Constitution of the United States,—

“ARTICLE—

“SECTION 1. The terms of the President and Vice President shall end at noon on the 20th day of January, and the terms of Senators and Representatives at noon on the 3rd day of January, of the years in which such terms would have ended if this article had not been ratified; and the terms of their successors shall then begin.

“SEC. 2. The Congress shall assemble at least once in every year, and such meeting shall begin at noon on the 3rd day of January, unless they shall by law appoint a different day.

“SEC. 3. If, at the time fixed for the beginning of the term of the President, the President elect shall have died, the Vice President elect shall become President. If a President shall not have been chosen before the time fixed for the beginning of his term, or if the President elect shall have failed to qualify, then the Vice President elect shall act as President until a President shall have qualified; and the Congress may by law provide for the case wherein neither a President elect nor a Vice President elect shall have qualified, declaring who shall then act as President, or the manner in which one who is to act shall be selected, and such person shall act accordingly until a President or Vice President shall have qualified.

“SEC. 4. The Congress may by law provide for the case of the death of any of the persons from whom the House of Representatives may choose a President whenever the right of choice shall have devolved upon them, and for the case of the death of any of the persons from whom the Senate may choose a Vice President whenever the right of choice shall have devolved upon them.

“SEC. 5. Sections 1 and 2 shall take effect on the 15th day of October following the ratification of this article.

“SEC. 6. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of three-fourths of the several States within seven years from the date of its submission”—be ratified by the General Court?

The polls will be open from eight o'clock a. m. to eight o'clock p. m. And you are directed to serve this Warrant by posting attested copies thereof seven days at least before the time of said meeting as directed by vote of the Town.

Hereof Fail Not, and make return of this Warrant with your doings thereon at the time and place of said meeting.

Given under our hands this 28th day of October, A. D., 1932.

JAMES A. GRANT,
ROYAL SHAWCROSS.

Selectmen of Chelmsford.

COMMONWEALTH OF MASSACHUSETTS

Chelmsford, Mass., October 31, 1932.

Middlesex, ss.

Pursuant to the within Warrant, I have notified and warned the Inhabitants of the Town of Chelmsford by posting up attested copies of the same at the Post Offices in the Center of the Town, South Chelmsford, North Chelmsford, West Chelmsford, at the School House at East Chelmsford, and at the Golden Cove School House at the Westlands, seven days before the date hereof, as within directed.

JOHN J. BUCHANAN,

Report of State Audit

June 8, 1932.

TO THE BOARD OF SELECTMEN :

Mr. Frank J. Lupien, Chairman,
Chelmsford, Massachusetts.

Gentlemen :

I submit herewith my report of an audit of the books and accounts of the Town of Chelmsford for the period from January 1, 1931, to April 16, 1932, made in accordance with the provisions of Chapter 44 of the General Laws. This is in the form of a report made to me by Mr. Edward H. Fenton, Chief Accountant of this Division.

Very truly yours,

THEODORE N. WADDELL,
Directors of Accounts.

MR. THEODORE N. WADDELL,

Director of Accounts

Department of Corporations and Taxation

State House, Boston.

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the Town of Chelmsford for the period from January 1, 1931, to April 16, 1932, and submit the following report thereon:

The books and accounts of the town accountant were examined and checked with the treasurer's books and with the records in several departments collecting money for the town.

The appropriations, as entered in the ledger, were checked to the town clerk's records of appropriations voted by the town.

In checking the assessors' computation of the tax rate for the year 1931, it was noted that the amount raised by taxation for State taxes was \$360 less than the amount required to be raised.

It was also found that appropriations from surplus revenue aggregating \$10,470 and a transfer from the appropriation for the Riverneck Road to that of the Old Westford Road, amounting to \$2,000 were voted at special town meetings held on October 14, 1931, and November 6, 1931, respectively. These appropriations, having been made subsequent to the last annual tax assessment, should be reported by the town clerk to the assessors to be included by them in the determination of the 1932 tax rate; and if the written authority of the Commissioner of Corporations and Taxation is secured, in accordance with the provisions of Chapter 428, Acts of 1931, the amount of these appropriations from available funds may be used by the assessors as a deduction from the sum to be raised by taxation in 1932.

As required by Section 23, Chapter 59, General Laws, the assessors should include in the 1932 tax levy the deficits in the overlay accounts of 1926, 1927, 1928, 1929, and 1931; while the overdrawn appropriations of 1931 should be appropriated and raised in the revenue of 1932.

In the examination of bills and payrolls, it was noted that police uniforms were purchased in 1931, although there appeared to be no record of the acceptance by the town of Section 6-B, Chapter 40, General Laws.

It is recommended that in the future a specific appropriation be voted for the purchase of new fire hose.

The ledger accounts were analyzed, the necessary adjusting entries were made, and a balance sheet was prepared showing the financial condition of the town as of April 16, 1932.

The books and accounts of the town treasurer were examined and checked. The recorded receipts were analyzed and compared with the records in the departments collecting money for the town and with the other sources from which money was paid into the town treasury, while the payments were checked with the selectmen's warrants authorizing the disbursement of town funds.

The bank balance was reconciled with a statement furnished by the bank in which the town funds are deposited. This reconciliation showed a bank overdraft of \$2,416.74 as of April 16, 1932, due to the fact that temporary loan notes were not received for deposit in time to avoid such overdraft.

The books and accounts of the tax collector were examined and checked. The commitments of taxes and assessments for levies of 1926, 1927, 1928, and 1929, and the commitments for the levies of 1930, 1931, and 1932, were reconciled with the assessors' warrants. The cash book additions were verified, the payments to the treasurer for the several levies were checked to the treasurer's cash book, the abatements were checked with the assessors' records of abatements granted, and the outstanding accounts were listed and reconciled with the accounts as shown in the accountant's ledger.

The outstanding accounts were further verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

The accounts of the tax collector, as collector for the North Chelmsford Fire District and the Chelmsford Water District, were examined and checked in detail, and the payments to the treasurer were checked with the amounts entered on the treasurer's cash book.

The town clerk's records of town licenses, together with the records of sporting and of dog licenses, were examined, the payments to the town treasurer being compared with the treasurer's cash book and the payments to the State and county, respectively, being verified with the receipts on file.

The accounts of the public welfare, health, and school departments, in addition to all other departments collecting money for the town or committing bills for collection, were examined and reconciled with the accountant's and treasurer's books.

The financial accounts of the town infirmary were examined and checked. The receipts from the sale of milk in 1930 and 1931, as recorded on the book of the former superintendent of the infirmary, were compared with the amounts paid to the superintendent by the purchaser, as evidenced by the canceled checks in the latter's possession, and it was noted that the several amounts entered on the superintendent's cash book were less than the sums apparently collected by him from the sale of milk. Thus, while the amounts collected by the superintendent in 1930 and 1931 from sale of milk aggregate \$637.97, the payments to the treasurer for the corresponding period amounted to \$381.05, leaving the sum of \$256.92 still due from the former superintendent.

It was noted that the receipts of the Adams Library on account of fines, rentals, etc., were either expended by the librarian for library purposes or turned over to the treasurer of the library trustees, instead of being deposited in the town treasury, as required by Section 53, Chapter 44, General Laws.

Attention is called to the various uncollected departmental bills which are of several years' standing. A determined effort should be made to collect them, but if it is found that they are uncollectible, they should be abated by the departments in which the charges originated.

The payments of maturing debt and interest were proved with the amounts falling due and with the canceled securities on file.

The savings bank books representing the trust and investment funds in the custody of the town treasurer, the treasurer of the library trustees, and the insurance fund commissioner, were examined and listed. The income was proved and the withdrawals were checked with the receipts shown in the treasurer's cash books.

The surety bonds of the treasurer and collector, town clerk, and insurance fund commissioner for the faithful performance of their duties were examined and found to be in proper form.

In addition to the balance sheet mentioned above, there are appended to this report tables showing a reconciliation of the treasurer's cash summaries of the tax, assessment and departmental accounts, as well as tables showing the trust and investment fund transactions.

For the courtesies extended by the various town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted

EDW. H. FENTON,
Chief Accountant.

REPORT OF THE TAX COLLECTOR

For the Year Ending December 31, 1932

I herewith submit my report as Tax Collector for the year ending December 31, 1932. At this time I wish to call to the attention of the tax payers the law in regard to the collection of taxes, as I believe that the majority of tax payers do not understand clearly the time limit on payment of real estate taxes, therefore I publish for their benefit Chapter 128 of the Acts of 1923, as follows:

If any tax, betterment or special assessment remains unpaid fourteen days after demand therefor, *the Collector, in the case of any tax, betterment or special assessment upon real estate, within one year from October first in the year of assessment,* and, in case of any OTHER tax, within two years from said October first, shall collect the tax, together with all incidental charges and fees, in the manner provided by law.

The Assessor's commitment to me of taxes, State, County and Town and also Auto Excise Taxes for 1932 is made up as follows:

The tax Collector wishes to bring to the notice of readers of this report that in comparing the interest collections with the amount of taxes collected that the interest charges in the years 1928, 1927 and 1926 is comparatively small, this is so for the reason that in the amount of taxes shown collected for the year 1928, \$641.00 of this amount was paid by the previous tax collector's bonding company and no adjustment for interest could be made, of the 1927 tax as shown collected \$738.95 was paid by the bonding company and likewise no adjustment for interest could be made, and of the 1926 tax as shown collected \$254.85 was paid by the bonding company and no adjustment for interest could be made. In comparing the interest collected with the amount of tax collected it must be taken into consideration that these accounts were paid to the Collector with no interest charged.

REPORT OF THE TRUSTEES OF THE ADAMS LIBRARY

The board met for organization February 13, 1932, at the Library. The officers of last year were re-elected.

President: A. H. Davis.

Secretary: Mrs. E. R. Clark.

Treasurer: Wilson Waters.

A. H. Davis and Wilson Waters, to approve all general bills. A. H. Davis and Mrs. E. R. Clark to approve bills for books. Mrs. Ida A. Jefts was re-appointed librarian, and Mrs. G. W. Peterson, assistant.

It was voted to adopt the post card system for reserving books, no book to be held more than three days. It was voted to open the stacks to adult patrons, and that teachers be allowed to take books for school room use to be kept for three weeks with the privilege of renewing for two weeks.

The library held two "Story Mornings" for third and fourth grade children.

At the May Meeting, Mrs. Mae S. Lewis, school nurse read a letter from the State Board regarding contagious diseases and the proper care of books. A copy of the letter is on file at the library.

A valuable collection of pictures in portfolios for lending to students and others is being made by Miss Frances Clark and Mrs. Herbert Bishop which will soon be ready for use.

The business of the library has been conducted very satisfactorily during the year. The circulation has increased 4,318 over that of last year.

North Chelmsford, Mass., Dec. 21, 1932.

The Trustees of the North Chelmsford Public Library submit the following report for the year:

Two weeks this summer we closed the Library for the purpose of re-decorating the interior of building.

Circulation for the year was 18,980.

Sessions, 153.

New books added, 163.

One Encyclopedia.

Books have been repaired and rebound and the shelves are all in order after stock taking.

A very great increase of children from the lower grades in school, has been noted which show the children are taking advantage of the Library.

RECOMMENDATIONS

During the year 1932 we were faced with greater demands for police protection than we have experienced in previous years. As new roads are improved and added to our highway mileage the amount of patrolling increases also. The unemployment conditions existing throughout the country

have also added to our police work during the past year. In times of general unemployment there is also greater lawlessness and petty crimes enacted.

It is interesting to note that over fifty per cent of the police department's work is necessitated by motor vehicle violations and accidents that are not directly caused by our own townspeople but by people using our highways whose residences are in other localities. A study of the police department statistics contained in this report will verify this statement. Greater demands are also being made of our police department to co-operate with police departments of other towns and cities in the apprehension of criminals and also investigations for various types of law violations.

At the town meeting of last February the voters authorized the purchase of a police car. This car has rendered excellent service during the past year and is a credit to the town. This car has been equipped with a police radio receiving set which was installed and paid for by the men of the police department without any cost to the town. It is a valuable addition to the department enabling us to receive reports and alarms circulated from state headquarters. It is also possible with this radio for us to be in communication with the officers on patrol in case of emergency. If such occasion arises we call the state police headquarters and they immediately broadcast the information which is picked up through the radio in our police car.

The police car is housed in a garage built in the cellar of the town hall at the Centre. It was constructed by the officers of the police department and financed by them without cost to the town.

Each year greater demands are made upon the department to render more service and each complainant feels that his request should receive immediate attention. We, in the department would like to give it but the taxpayers must realize that to have an organization so constructed to give this outstanding service, with instant attention requires a larger and more costly organization, than which at present exists. It is our aim to give the taxpayers one hundred cents of protection for every dollar they appropriate. The officers of the department exhibit a great interest in their work. They have a fine morale and average many more hours of duty than the regulations of the department stipulate.

Safety has become a great problem in Chelmsford as so many main highways pass through our town. This of course necessitates greater traffic supervision. I have given the matter of school children safety a great amount of study and recently in co-operation with the school authorities have installed safety patrols in some of the schools. Before the school year is completed these patrols will be in operation in all schools where they are deemed necessary. The mothers of the schoolchildren where these patrols are in effect have expressed their appreciation of this system. I have obtained safety experts from the State House who have delivered safety talks to the children in the schools. This activity is important not only in prevention of accidents to school children but should also be of financial interest to the taxpayers because reduced accidents means lower insurance rates.

At this time I wish to thank the citizens for their loyal co-operation by which they have made it possible to accomplish great progress. We hope that the citizens will visit our headquarters and allow us to show them how the department operates and let them get acquainted with the system in use.

At the town meeting in February, 1933, through an article in the town warrant, I am asking the voters to appropriate money for the purchase of a new motorcycle. If it is authorized by the taxpayers, I will trade in towards the purchase price a motorcycle that is now in use by the department. It has been in service for some time and the mechanical condition is such that the repairs necessary to keep it in service would cost more than it is considered practical.

In conclusion I wish to express my appreciation to the Honorable Board of Selectmen for the assistance and co-operation they have extended me. I am extremely grateful to the outside police departments and officials of the Lowell District Court for their fine co-operation they have extended during the past year. My comrades are to be commended for their loyalty, co-operation and interest that they manifested in the duties of the department.

Respectfully submitted,

BERNARD F. McGOVERN,

Chief of Police.

REPORT OF FISH AND GAME WARDEN

To the Board of Selectmen,
Chelmsford, Massachusetts.

The following report is respectfully submitted for the year ending December 31, 1932.

Number of arrests made	9
Cases presented in court	9
Findings of the court—guilty	9
Fines imposed	7
Filed	2

The aforementioned arrests were made for the following reasons:

Fishing without a license	7
Taking of short fish and fish out of open season	1
Exceeding bag limit	1
	<hr/>
	9

The seven fines imposed totaled seventy dollars (\$70.00) of which one half goes to Middlesex County and the other half to the town of Chelmsford. Thus aside from the other considerations the Town of Chelmsford has benefited to the extent of thirty-five dollars (\$35.00) from the activities of the Fish and Game Warden during the past year.

Eight juveniles were given first warnings for the following misdemeanors.

Shooting at insectivorous birds	4
Taking short brook trout	2
Taking short bass	1
Fishing without a license	1
	<hr/>
	8

Three complaints were received and investigated.

The following list of vermin was destroyed.

Crows	17
Crow black birds and Grackles	42
Jays	10
Wild house cats	3
Pigeon hawk	1
Woodchuck	1

Wardens' Telephones: John C. Preston, North Chelmsford—3144-M.
District Warden Crosby, Dracut—5698.

The entire town was patrolled at various times with particular attention being given to the waters found within the township. The time, gas-

oline and equipment, including automobile, used by the warden during the past year were given gratuitously by him.

The attention of property owners and farmers is called to the fact that the state laws in regard to fires, trespass, property damage and dogs are enforced by Fish and Game Wardens, and any warden will be glad to help you in these matters.

I take this opportunity to express my thanks to Deputy Wardens McShane and Collins who have assisted me during the past year and to District Warden Crosby who has given me invaluable aid, particularly in the presentation of cases in court.

Respectfully submitted

JOHN C. PRESTON,
Fish and Game Warden.

REPORT OF FIRE ENGINEERS

To the Honorable Board of Selectmen,
Chehnsford, Mass.
Gentlemen:

The annual report of the Board of Fire Engineers is respectfully submitted herewith:

The Board is organized as follows:

Harry L. Shedd, Chief

John W. Dixon, Assistant Chief

John M. Kemp, Assistant Chief

With the latter also serving as Clerk of the Board.

The Board appointed the following District Chiefs:

Wilhelm T. Johnson

District No. 1

Joseph D. Ryan

District No. 2

Norman Edwards

District No. 3

Henry G. Quinn

District No. 4

Arthur W. House

District No. 5

The department is manned by competent officers and the men have rendered whole-hearted and loyal service responding day or night whenever called and both officers and men are deserving of the highest praise for their accomplishments.

The apparatus equipment and the quarters have been under constant care and kept up to the highest standard possible.

The Department has responded to 115 alarms of fire within the town including 21 calls for brush and forest fires and 7 calls for fires in adjoining towns. There were three calls for help in drowning accidents, one of which, through the promptness of the Department, resulted in the saving of a man's life.

One of the outstanding achievements of the year was the building and equipping of a completely furnished chemical truck by the members of the West Chelmsford Company under the direction of Chief Norman Edwards and Captain Elmer Trull. This piece of apparatus which possesses many new and novel features, was viewed by a number of fire chiefs and insurance men who pronounced it a finished product, one of the chiefs from Lowell stating that in his opinion a similar truck would cost at least \$3000 if bought in the open market. It was presented to the town without cost and up to date has over 100 hours of service to its credit.

Telephones have been installed with men detailed in watches to answer any call day or night so that any citizen possessing a telephone is a potential fire alarm station. This means of giving a quick alarm together with the prompt response of the Department has resulted in a number of instances in preventing a serious fire loss.

Through the co-operation of District Chief Quinn, a quantity of filling was secured and the grounds around the fire house at East Chelmsford graded without cost to the town.

We would reiterate the need of a portable pump mounted on a light truck for use in sections where the water supply is inadequate for the large pumpers. We have felt that the town's finances under present conditions do not warrant our asking for it at the moment but when the depression passes, we hope to obtain authority for the purchase of this much-needed apparatus at the earliest moment possible.

We desire to pay tribute to the excellent Police Department of our town together with State Troopers and motorcycle police of Lowell, all of whom have responded with hearty co-operation whenever called upon.

Respectfully submitted,

HARRY L. SHEDD
JOHN W. DIXON
JOHN M. KEMP

REPORT OF THE BOARD OF HEALTH

The Board invites your careful scrutiny of the report submitted by our agent, Mrs. Lewis. The number of cases of contagious diseases is showing a steady improvement. Her report indicates that a great deal has been done to improve the teeth of the school children. The value of the Schick test and immunization clinics is readily apparent. Only one case of diphtheria was reported during the year. This case was that of a child who had moved into town during the year. We commend Mrs. Lewis for her very efficient work.

During the fall several persons were bitten by a rabid dog and Pasteur treatment was given. In connection with this the Board wishes to point out the danger from dog bites. Any person bitten by a dog should immediately consult a physician and should the physician decide that treatment is advisable, the Board will procure vaccine.

We take this opportunity to remind the town that plumbing regulations are in effect and that no installations or repairs can be made without a permit.

We ask that the people of the town co-operate with the Board in making a proper use of the various public dumps. The Westlands dump particularly was a constant source of annoyance to the neighboring houses because many people were careless in dumping refuse. The driveway had to be cleared several times during the year at considerable expense. We earnestly request that anyone using the Westlands dump, deposit the waste over the bank rather than dump it in the roadway. Carelessness in this respect means additional expense to the taxpayers.

The Board earnestly requests the co-operation of everyone in securing a desirable sanitary condition, and wishes to be notified of any existing nuisance, source of filth, or cause of sickness within the town. We quote in part from the regulations of the Board of Health:

No person shall allow any sink or waste water to be turned into or upon any street, lane, gutter or sidewalk of the town.

Brooks, open drains and sluiceways upon premises within certain defined limits in the town shall be kept free from such obstructions as permit the accumulation of stagnant water.

No person shall deposit any ashes, tin cans or rubbish of any description in any place within the town other than in a public dumping ground, or on premises owned or occupied by him, without a permit from the Board of Health.

No person shall suffer any waste or stagnant water which is likely to become a nuisance or offensive or dangerous to public health to remain in any cellar or on any lot of land owned by him.

No person shall deposit filth or fish, flesh, slops, offal or the contents of any cesspool of privy vault upon the surface of the ground unless the same is plowed under or otherwise covered within twenty-four hours.

No person shall remove the contents of any cesspool, privy vault or drain from any premises (between certain dates, if desired) without a permit from the Board of Health, and in all cases only in watertight

receptacles, and at such times and in such manner as shall not be offensive nor dangerous to the public health.

No person shall construct or establish within the town any cesspool or privy vault without a written permit from the Board of Health, and then only in such location and in such manner as it shall approve.

No person shall establish a well for drinking or domestic purposes without a written permit from the Board of Health.

No person shall keep swine within the limits of the town without first obtaining a permit so to do from the Board of Health, and in all respects complying with the conditions of such permit.

Respectfully submitted,

F. A. MacELROY, Chairman,
G. A. McNULTY,
J. KIBERD, JR.

REPORT OF THE AGENT OF BOARD OF HEALTH

Mr. F. A. MacElroy,
Chairman of Board of Health.

Dear Sir:

The following is a report for the year 1932:

Scarlet Fever	43
Chicken Pox	19
Whooping Cough	1
Tuberculosis	3
Measles	2
Lobar Pneumonia	1
Diphtheria	1
(In this one fatal case the child moved from Lowell and was immediately taken to the Isolation Hospital.)	
Dog Bites	9
Home Visits	316
Investigations	112

In case of any contagious disease in any school room the school physician examines the pupil and the nurse inspects daily until the patient has recovered. Books and desks are properly taken care of. The librarians are notified in case of library books.

Several trips were made to the Middlesex Sanitarium in Waltham with patients.

Pupils sickened in May who were immunized in October, 1931:

Negative	195
Positive	14

Those 14 children were re-immunized in October when we conducted our immunization clinic for the first grade and pre-school children. We immunized 153 pupils, 33 pre-school, one mother and one teacher.

Sixteen hundred children had a dental examination showing the following results:

Teeth Treated	184
Permanent fillings	900
Deciduous fillings	700
Cleanings	800
Permanent Extractions	10
Deciduous Extractions	366

In two of the eight grammar schools every pupil has received dental care which makes their teeth perfect. In our high school 350 pupils out of 380 pupils have their teeth in perfect condition.

May Health Day was observed in all the schools. Following the children's part in the program physically fit and improvement tags were awarded.

The follow-up clinic by the Department of Public Health, Division of Tuberculosis, was held in the Public Schools of Chelmsford with x-rays in October, 1932 followed by physical examinations in November, 1932. Twenty-eight pupils and three who have left school benefitted by the x-rays and examinations. Most of the children are found to be underweight but all of them show some improvement. The examination showed these results:

Improved	31
Tonsil and Adenoid Operation	1
Malnutrition	1
Following Recommendation	30
Not Following Recommendation	1

Dr. Archibald and Miss Martin from the State Department of Public Health visited several times.

In September the Parent Teachers Association took charge of the lunch room in the McFarlin School which is now self-supporting. Free lunches which were given include 304 bowls of soup, 285 cups of cocoa, 80 sandwiches, 239 bottles of milk and 3 dinners. Hot lunches are served in the Princeton School. Hot soups and cocoa are served in the Quessy and East Chelmsford Schools. Most of the children in the other schools are able to go home for lunch.

Private families and the Girl Scouts gave baskets, clothing and toys which I gladly distributed for Thanksgiving and Christmas.

I wish to thank everybody for their kind and excellent co-operation.

Respectfully submitted,

(Mrs) MAE S. LEWIS, R. N.

ANNUAL REPORT MILK INSPECTION DIVISION

Board of Health,
Chelmsford, Mass.
Gentlemen:

I have the honor to present the report of the milk inspection division for the year beginning Jan. 1, 1932.

Forty-three stores and twenty distributors were licensed to sell milk. Four stores were licensed to sell oleomargarine. Four pasturizing plant licenses were issued.

Sixty-three dollars and fifty cents, collected from licenses, were paid to the Town Treasurer.

Two hundred ninety-nine dairy farms supplied Chelmsford with milk during the year.

There were four hundred fifty-three chemical; Two hundred thirty-nine bacterial; Two hundred thirty-seven sediment samples examined from distributors and producers. Temperatures were taken of two hundred eighteen samples of milk.

Four hundred thirty-six dairy farm inspections were made. Twenty-seven cans of milk were rejected.

A large percentage of the producers supplying milk for the Town are now equipped with a milk room or milk house and have suitable means for keeping the milk cold until taken by the dealer. A few, while equipped properly, do not seem to see the need of using what they have or will not keep the equipment in a clean sanitary condition. Considerable annoyance from this type of producer was caused this past summer. The rejection of their milk until the equipment is clean or used seems to be the only language they understand. The quality of the milk sold in Town, from the total solids, fat and sediment point of view, is much above the legal standard. The improved care taken by the producer in cooling his milk, and handling in clean sterile containers is reflected in the finished product by the large number of low bacterial counts obtained during the year.

The averages for the year are: Total solids, 12.78 per cent; Fat, 3.97 per cent; bacteria per cubic centimeter, Pasteurized, 19,000; raw, 14,000. The daily average consumption of milk was 2688 quarts.

Respectfully submitted,

M. F. MASTER.

Gentlemen :

During the year 1932 I made 65 calls on markets and butcher carts. Conditions have been about as good as usual.

Respectfully submitted,

ALBERT S. PARK,
Inspector of Markets.

INSPECTOR OF ANIMALS REPORT

January 1, 1933

Board of Selectmen, Chelmsford, Mass.

Gentlemen:

The following is a report of the work done by this department under the direction of the Division of Animal Industry, State Department of Conservation during the year 1932.

The annual inspection has just been completed and a detailed report submitted to the above-named Division.

In 198 stables there are 775 dairy cows, 197 young cattle and 22 bulls, making a total of 994 cattle. This is a decrease of 73 head or about 7 per cent since last year. This decrease is mostly in the number of dairy cows as the young cattle show an increase of 9 over last year. This is the first time the cattle census has totaled less than 1000 head in the past twenty-five years, the highest in that period was 1295 head in 1911. There are also 365 swine 10 sheep and 14 goats.

The animals are distributed by precincts as follows:

Precinct	Cows	Young Cattle	Bulls	Swine	Sheep	Goats
1	404	90	12	312	2	2
2	92	35	3	99	4	1
3	31	6	0	26	0	0
4	78	15	1	58	1	0
5	136	33	5	66	3	10
6	34	18	1	10	0	1
Total	775	197	22	565	10	14

Forty-four herds are under State and Federal supervision for the eradication of tuberculosis, eighteen being accredited. About twenty others are to be tested early in January under the so-called emergency test which is applied so that the milk producer will not lose the market for his milk. The area test which was petitioned for a year ago, will be applied in the spring. I am assured that Chelmsford's turn should be reached by that time if the legislature appropriates sufficient money to carry on the work.

Your inspector is required to report whether condemned cows have been removed from herds, to see that all stables in which diseased cows are found, are repaired, cleaned and disinfected according to requirements. Owners cannot secure payment for reactors until the cleanup is properly completed.

Fifty visits to twenty different stables were required for this checkup. The coming year will see a large increase in this kind of work with all stables under supervision.

Forty dog-bite cases have been investigated: Twenty-seven dogs quarantined for a two weeks observation period were afterward released, no rabies having developed. Two dogs were quarantined for having been in con-

tact with rabid dogs and owners killed them upon advice. Three dogs were found affected with rabies, one an outstanding case was that of a dog which after having been killed by the owner was discovered to be responsible for eleven bites—this knowledge necessitated exhuming the body and taking the head for analysis. This examination revealed a positive case of rabies which called for immediate application of treatment for the victims of this animal. The other two dogs were not known to have bitten anyone. Two dogs were reported by citizens as rabid but a checkup revealed that one was only lost, the other bit several dogs and was killed by the police. Neither appeared to have rabies.

Seventy-six cows and six bulls were shipped into town from Vermont, New Hampshire and Canada on permits. All were identified by tag numbers and descriptions, so were released they having passed satisfactory tests.

No cases of hog cholera or glanders have been reported.

In this period of pioneering among the cattle owners on this tuberculosis eradication program I would like to extend my appreciation to them for their cooperation and willingness to assist in this work which it has been my duty to urge upon them.

ARNOLD C. PERHAM.

Inspector of Animals.

MIDDLESEX COUNTY EXTENSION SERVICE REPORT

Following is a report of the work of the Middlesex County Extension Service as it was developed during the year in the Town of Chelmsford.

72 farm visits were made during the year to dairymen in the interest of developing better milk markets, to create interest in the eradication of bovine tuberculosis, and dairy replacements.

With the poultrymen, the work had to do largely with disease control and construction of poultry houses. With the market gardeners and fruit growers soil testing, spraying, and pruning were the problems presented by the farmers of the town. The largest winter fruit meeting in the county was held in Chelmsford and a very successful market garden meeting was held.

A series of meetings for homemakers was held with Mrs. Charles Gaudette and Mrs. D. F. Sullivan as leaders. The mothers' group in Chelmsford Center and North Chelmsford, with Mrs. Clarence Woodward, Mrs. Berg, Mrs. D. F. Sullivan, and Mrs. Joseph Fallon, completed their program in April.

Mrs. Ruth D. Morley, state specialist in child guidance, spoke in West Chelmsford.

A new group of young mothers organized a study group in child guidance. Mrs. Van Lunen and Mrs. Aril Trubey have been instrumental in its organization. Mrs. Trubey is the leader and attends the leader training schools in Lowell.

A meeting in "Inexpensive Christmas Gifts" was conducted by Miss Mary Pozzi, state recreation specialist.

A talk on Extension Service was given at the Westlands P. T. A.

312 girls and boys were enrolled in 4-H Club work in garden, canning, poultry, clothing, handicraft, food and health clubs. Percy W. Kimball served as 4-H Club chairman, and the following served as local leaders: Mrs. E. D. Harris, Mrs. Ernest Ferron, Mrs. Joshua Machon, Mrs. R. P. Kidder, Mrs. E. T. Burbeck, Mrs. Vivian Jackson, Mrs. Robert Barris, Mrs. Ralph Finch, Mrs. Emil Anderson, Mrs. James Taylor, Miss Betty Long, John Rikkola, Marcus Johnson, Martin Bergsten, Edwin Rikkola, Dewey Fish, Edwin Ericksen, John Daughraty, Sidney Dupce, Charles House, John Cassidy, Bayard Dean, Thaddeus Ducharme and Lucien Ducharme.

Mrs. Harris, Mrs. Machon, Mr. John Rikkola all attended the leaders' camp during Camp Gilbert at the Massachusetts State College.

Arlene Corr, Irene Cox, Myrtle Ferron, Yvonne Crawford, and Charles Merrill were awarded a two-day trip to Amherst for good project work.

Several of the Chelmsford clubs attended and took part in the County Rally in Concord.

Julia Koulas was given the honor of being State delegate to Camp Gilbert on the merits of her garden work. Phyllis Welsh won a red ribbon at the State Health contest in Worcester.

The Wide-Awake Sewing Club, under the leadership of Mrs. R. P. Kidder and Mrs. E. T. Burbeck, had the distinction of having five boys enrolled as members. The Chelmsford Center clubs displayed their exhibits of clothing, handicraft and poultry, in a local store window. The South Chelmsford club gave a delightful evening's program with its display of exhibits, having Mr. George L. Farley, State Club Leader, as guest speaker of the evening. East Chelmsford clubs also had an exhibit and program in connection with a P. T. A. meeting. The North Chelmsford garden club (John Cassidy, leader) had a most attractive window display of vegetables. A Mother's Day program, with minstrel entertainment, was given by the Westlands clothing club, under the leadership of Mrs. Vivian Jackson.

Several prizes in the Middlesex North Garden Contest went to Chelmsford boys. John Cassidy and Julia Koulas participated in the vegetable judging contest at Brockton Fair. The West Chelmsford canning club (leaders, Mrs. Emil Anderson and Mrs. James Taylor) were awarded second prize at Groton Fair for their canning exhibit.

With its score of able and enthusiastic townspeople acting as local leaders, Chelmsford has had a good record of completions and has maintained a satisfactory standard of clubwork.

PERLEY W. KIMBALL.

REPORT OF CEMETERY COMMISSIONERS

To the Board of Selectmen,
Chelmsford, Massachusetts.

The cemetery commissioners beg to submit the following report for the year ending December 31, 1932.

Fore Fathers, new work. The front of hillside facing the two rows of tombs regraded and seeded. Also marble slabs on perpetual care lots reset. The reason for resetting of slabs is because of the fact that at time of erection no foundation was required and as the graves sunk, the markers became out of plumb. The new regulation of foundations now overcomes this. With the exception of \$20.10 for new tools the balance was used for general upkeep.

Pine Ridge, new work. At entrance underbrush cleared and burned, trees trimmed and some grading completed. This improves and adds much to the appearance of the entrance. The sum of \$5.00 for grass seed and fertilizer and the balance for general upkeep. Six lots have been sold during 1932.

Hart Pond, new work. An avenue in accordance to blue print which is of half circle through new section, has been dug out and earth used to grade unsold lots. These lots were very rough and impossible to sell as were. \$33.95 was spent for tools. One lot was sold.

Riverside, new gates have been built and put on. Wall on front side repaired. Front avenues repaired. Headstones in old section reset. No lots sold. The general care has been good.

Fairview, new posts put at corner of avenues to keep machines from cutting turf. No lots sold. Driveways cleaned out and all cleared land mowed.

West Cemetery, new work. Continuation of fence repair throughout cemetery. Grading of lots in new section and repair work on avenues in old section. The general fall clearing of cemetery has been completed. Sunken graves in uncared for lots have been filled and taken care of. These are lots in old section where no known relatives are living.

Interment 1932. Fore Fathers, 6. Pine Ridge, 10. Hart Pond, 4. Riverside, 8. Fairview, 1. West, 6.

Respectfully submitted

ARTHUR O. WHEELER,
BAYNARD C. DEAN,
C. WESLEY LYONS,

Cemetery Commissioners,
Town of Chelmsford.

REPORT OF FOREST WARDEN

To the Board of Selectmen,
Chelmsford, Mass.
Gentlemen:

I herewith submit the annual report of the Forest Warden.

There were 149 forest and grass fires reported in town the past year. In the majority of cases they have been extinguished before gaining much headway, thanks to the good work and alertness of Observer Blood in quickly locating and reporting them.

The principle cause of most fires has been from careless smokers. The throwing of lighted smoking material from automobiles is our worst hazard at this time. There is a law now in force which prohibits the throwing of lighted smoking material from any vehicle on a public or private way.

The most serious fire this year was in April on the land of The Crystal Lake Realty Corp., where more than 100 acres were burned. This fire started from the roadside, and but for the splendid work of the Chelmsford Fire Department, many buildings would have been destroyed.

At this time I wish to thank the citizens of Chelmsford for their co-operation with the forest warden in taking care of their fires in the open air.

Besides the District Chiefs of the Fire Department, the following Deputy Forest Wardens have been appointed: Raymond McMasters, Allan Adams, Jessie B. Gill, Charles A. House, Walter H. Merrill, Fred W. Merrill, Fred L. Fletcher and Robert Henderson.

Respectfully submitted

RAYMOND E. SARGENT,
Forest Warden.

REPORT OF SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen,
Chelmsford, Mass.
Gentlemen:

One Constable for one year.

All on one ballot.

The polls will be open from 12 noon to 8 p. m. and to meet in the Town Hall at Chelmsford Centre on the following Monday, the Thirteenth day of February, at 10 o'clock in the forenoon, then and there to act upon the following articles, viz:

ARTICLE 1. To hear reports of Town Officers and committees; or act in relation thereto.

ARTICLE 2. To raise and appropriate such sums of money as may be required to defray Town charges for the current year; or act in relation thereto.

ARTICLE 3. To see if the Town will authorize the Selectmen to act as its agent in any suit or suits which may arise during the current year; also in such other matters as may arise requiring in their judgment the action of such agent, and to employ counsel therefor; or act in relation thereto.

ARTICLE 4. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenues of the current financial year; or act in relation thereto.

ARTICLE 5. To see if the Town will vote to raise and appropriate a sum not exceeding Two Thousand Dollars to be used as a Reserve Fund at the discretion of the Finance Committee, as provided in General Laws, Chapter 40, Section 6; or act in relation thereto.

ARTICLE 6. To see if the Town will vote to raise and appropriate the sum of Four Hundred Dollars, or some other sum, for State Aid; or act in relation thereto.

ARTICLE 7. To see if the Town will vote to raise and appropriate a sufficient sum with which to meet unpaid bills of 1932; or act in relation thereto.

ARTICLE 8. To see if the Town will vote to authorize the Selectmen to contract with the Lowell Electric Light Corporation for the following additional lights and raise and appropriate sufficient money to meet the expense thereof, viz:
Two lights on Evergreen Street,
One light on Woodlawn Avenue,
One light on Westford Street; or act in relation thereto.

ARTICLE 9. To see if the Town will vote to accept Woodlawn Avenue as laid out by the Selectmen as shown in their report and plan duly filed in the office of the Town Clerk; or act in relation thereto.

- ARTICLE 10. To see if the Town will vote to raise and appropriate Three Thousand Dollars or some other sum for the purpose of reconstructing Middlesex Street, Three Thousand Dollars to be contributed by the Commonwealth and Three Thousand Dollars to be contributed by the County for said reconstruction; or act in relation thereto.
- ARTICLE 11. To see if the Town will vote to appropriate a sum sufficient to pay the County of Middlesex as required by law, the Town's share of the net cost of care, maintenance, and repair of the Middlesex County Tuberculosis Hospital and for care and treatment of tubercular patients up to June 30, 1932 under Acts of 1928, Chapter 385 as amended by Acts of 1931, Chapter 60 including interest or discount on temporary notes issued therefor as assessed in accordance with the provisions of Chapter 111 of the General Laws and Acts in amendment thereof and in addition thereto; or act in relation thereto.
- ARTICLE 12. To see if the Town will vote to raise and appropriate Seventy-five Dollars or some other sum for the purpose of defraying ambulance service; or act in relation thereto.
- ARTICLE 13. To see if the Town will vote to authorize the Selectmen to sell a motor cycle now used by the Police Department; or act in relation thereto.
- ARTICLE 14. To see if the Town will vote to raise and appropriate the sum of Two Hundred Thirty-six Dollars or some other sum for the purpose of purchasing a new motor cycle for the Police Department and to authorize and empower the Selectmen to make such contract; or act in relation thereto.
- ARTICLE 15. To see if the Town will vote to raise and appropriate Seventy and $45/100$ (\$70.45) Dollars for the purpose of defraying the repair bill on a motor cycle used by the Police Department; or act in relation thereto.
- ARTICLE 16. To see if the Town will vote to raise and appropriate the sum of One Hundred Dollars or some other sum for the purpose of defraying the salary of a Fish and Game Warden; or act in relation thereto.

ARTICLE 17. To see if the Town will vote to sell to the Westlands Improvement Association, Inc., for the sum of Two Hundred (\$200) Dollars or some other sum a certain parcel of land with the buildings thereon known as the Golden Cove School House. Said lot contains about one-half an acre of land and is situated on the westerly side of the Old Middlesex Road, now called Stedman Street.

ARTICLE 18. To see if the Town will vote to sell a certain parcel of land situated on the northerly side of Middlesex Street in that part of Chelmsford called North Chelmsford containing 11,636.83 square feet and more particularly described in a plan of land entitled "Plan of Land in North Chelmsford Belonging to Ella J. and Joseph D. Ryan, Scale 10 feet to an inch, April 1915, by F. W. Huntington, C. E." Said plan is recorded with Middlesex North District Registry of Deeds, Book of Plans 47, Plan 6. The aforesaid land was purchased from Walter N. Marinel by the Town on June 12, 1925 for the purpose of establishing a fire house on said property; or act in relation thereto.

ARTICLE 19. To see if the Town will vote to raise and appropriate the sum of Seventy-two and 50/100 (\$72.50) Dollars for the purpose of paying to the Roman Catholic Archbishop of Boston for land damages incurred in the re-location of Riverneck Road; or act in relation thereto.

AND YOU ARE DIRECTED to serve this Warrant, by posting attested copies thereof at the Post Offices in the Centre of the Town, South Chelmsford, North Chelmsford and West Chelmsford and at the School House, East Chelmsford and the Golden Cove School House, Westlands, seven days at least before the time appointed for holding the first meeting aforesaid.

HEREOF FAIL NOT, and make return of this Warrant, with your doings thereon to the Town Clerk, at the time and place of holding this meeting aforesaid.

Given under our hands this twenty-third day of January in the year of our Lord nineteen hundred and thirty-three.

FRANK J. LUPHEN, *Chairman*

The school year is divided into a fall term ending at the Christmas vacation, and three terms after the holidays.

Fall term from September 7, 1932 to December 23, 1932.

Second term from January 3, 1933 to February 17, 1933.

Third term from February 27, 1933 to April 14, 1933.

Fourth term from April 24, 1933 to June 23, 1933.

Eighth grade graduation at Chelmsford Center, June 15, 1933.

Eighth grade graduation at North Chelmsford, June 16, 1933.

High school graduation June 21, 1933.

The school year of 1933-1934 will open on Wednesday, September 6, 1933.

NO SCHOOL SIGNAL

In case of extremely bad storms or of roads dangerous because of ice, a signal for no school is given on the fire alarms at the Center, North, West, South, and East, three blasts, repeated three times. When given at 7.15 there are no sessions for the day. The signal at 11.15 indicates no afternoon session for the grades.

TEACHERS

The table shows the teachers at the beginning of the school year 1932-1933, the position held, the date when service in Chelmsford began, and the institutions in which they prepared.

REPORT OF THE SCHOOL COMMITTEE

We herewith submit the following as the report of your school committee for the year 1932.

It is advisable to direct your attention mainly, to the outstanding developments in the conduct and management of your schools for the past year and secondarily, to their everyday problems.

The enrollment of 375 pupils at the High School is the largest ever. The school enrollment has doubled in the past seven years. The physical handicap under which the teachers and pupils labor, together with the limited curriculum that it is possible to offer, is clearly and forcibly set forth in Supt. Wright's report of 1931. It makes a combination of undesirable conditions that voters should give thought and study to. This entire matter was surveyed by a special committee in 1931, but because of economic conditions, no headway was made.

The enrollment at the Westland School continues to tax the capacity of the building and creates a crowded condition in the class rooms. By changing a few pupils to the McFarlin School this problem has been temporarily remedied.

As the residential and school population grows and shifts, it becomes very obvious that the location of the Quessy School is most unfortunate and a source of constant extra expense to the town.

Our teaching staff remains practically of the same personnel as last year, but three resignations and new appointments having been made. We believe that we have as fine a teaching corps as the best, and better than communities that allow politics to enter into the school system.

The matter of transportation came to the fore this past summer as the original contract with Mr. Marinel expired. A new contract was entered into with him to run for a three year period, under still more favorable conditions for the town than the previous contract. The cost of transportation under the present contract is \$850.00 less each year than under the old contract, and the town now receives the use of an additional bus. We doubt if all the citizens are aware of the efficient manner in which Mr. Marinel handles this work. It is a big job done quickly and well with modern equipment and competent men and with all possible security and safety to the pupils.

The no school bell signal and the question of the policy governing its use has arisen this past year, prompted to some extent by an unusually rainy fall season. Your Committee has tried to consider all the aspects of this matter in order to establish a workable rule governing the use of the no school signal. In this town over one-third of all pupils are transported by school busses from points quite near their homes directly to the school doors. Others are brought by private machines. In view of this large number of pupils going to school by motor vehicle, all committees in recent years have held that if the roads are safe for travel at 7:15 A. M. the schools will keep open. By following this rule, we have observed that we average a greater percentage of correct decisions than if we tried to decide the probable duration of each storm on the appearances of the weather at 7:15 A. M.

Death has taken Mr. Charles E. Stearns, janitor of the Westland School, and we pay our respects to his faithfulness. Mr. E. Berg was chosen for the position. People knowing his character and capabilities appreciate our good fortune in placing the care of this property in his hands. As with our teachers, our janitors are worthy of your hearty commendation.

The Americanization classes at North Chelmsford and East Chelmsford have been discontinued for the present school year due to the fact that too few people attended the classes to justify the expenditure.

We wish to bring to your attention the amount of fire insurance carried on our various buildings. Policies of \$30,000 each are carried on the Quessy and East Chelmsford Schools. Fire loss to any other town owned buildings would be covered only to the extent of the sum of money in the sinking fund. At the present time there is approximately \$35,000.00 in this fund. This amount would be obviously insufficient in case of the loss of the McFarlin School or the High School.

Expenditures for repairs were kept as low as possible, and little except absolutely essential work was undertaken. Repairs to plumbing in all buildings cost \$367; to heating plants, \$607; to roofs \$188; to masonry, \$45; to electrical equipment \$165; window shades cost \$94; paint, varnish, oil, etc., used by janitors, \$225; replacement of furniture, \$102; walks built by Highway Department \$258; floors, doors, windows, etc., about \$250. Near the end of the year the Welfare Department began grading about the Quessy, Princeton St., and South Chelmsford schools. Material, trucking, and supervision for this work cost \$142, the labor coming from the Welfare Department. More work of this nature is contemplated under the same arrangement.

Our policy of maintenance of buildings, by having one or two interior or exterior paint jobs done yearly was suspended during 1932 in the interest of current economy. As has been pointed out in previous years school buildings are subject to hard usage and maintenance of your buildings at approximately two-thirds of 1 per cent of their appraised value is a low average rate.

The purchase of bottled water and of ice for the East and South Row Schools, because of the condemning of the previous sources of supply, has put a comparatively small but constant extra expense upon us for the past two years.

We are indeed fortunate in receiving the support and assistance of the various Parent-Teachers' Associations, and of numerous public-spirited individuals, who by their co-operation in the many activities of the different schools have made the year of 1932 truly a successful one for the department.

EDWARD B. RUSSELL,
JAMES P. CASSIDY,
JOHN A. McADAMS.

REPORT OF SUPERINTENDENT

To the School Committee:

Herewith is submitted my fifth annual report, the 59th in the series, together with reports of the Principal of the High School, the Music Supervisor, and the Nurse, all of which I endorse. Attention is called at the start to reports of preceding years, especially to that of 1930, in which a rather complete analysis of school expenditures was made. Since the most pressing problem of the moment is to reduce the cost of government, a further study of school finances is now in order. The report of 1930 should be read in connection with this one.

Schools constitute the most expensive department of local government everywhere. But while the total cost is large, an analysis of expenditures on a unit basis shows a cost which is surprisingly small. To illustrate, for the school year ending June 30, 1932 the Chelmsford schools cost \$103,436.32. There were 1514 pupils in average membership. Dividing total cost by this number gives for the per pupil cost \$68.32 for the year. The schools were in session 178 days, which makes the cost per pupil for each day only 38 cents. For that small amount per pupil buildings are kept in sanitary and comfortable condition; books, paper, pencils are furnished; trained teachers are provided; and nearly a third of the pupils are carried to and from school. The wonder is that so much can be done. Surely no one would dispute the point that when school expenditures are being considered, the unit cost, or per pupil cost, is the figure to keep in mind.

On that basis Chelmsford has one of the least expensive school systems in the Commonwealth. I ask that careful consideration be given the following comparison, the figures for which are from the published reports of the department of Education, Statistics of the Public Schools. The costs include the expenditures for support of all public schools—day, evening, and vacation—but do not include expenditures on account of state-aided vocational education, continuation schools, Americanization classes, or for outlay (new grounds and buildings, new equipment, etc.).

The first column gives the year, ending Dec. 31st; the second the number of pupils in average membership in the schools of Chelmsford; column 3 gives the total cost and column 4 the cost per pupil in Chelmsford; column 5 the cost per pupil in the towns of above 5000 in population; and column 6 the cost per pupil in the entire state. Beginning with 1914, the data are given at four year intervals to 1926, and for every year thereafter.

Read the table as follows: In 1914, Chelmsford had 921 pupils in average membership, and the schools cost \$34,556.92, making the cost per pupil \$37.52. In the same year the cost per pupil in the towns of 5000 population was \$35.71, and for the state \$40.41.

1.	2.	3.	4.	5.	6.
1914	921	\$34,556.92	\$37.52	\$35.71	\$40.41
1918	962	52,200.60	53.59	46.59	50.94
1922	1120	93,804.41	83.75	76.02	80.35

1926	1294	99,128.27	76.61	85.13	92.77
1927	1340	98,419.42	73.45	87.53	96.72
1928	1333	97,451.99	73.17	89.61	98.15
1929	1382	101,364.01	73.35	91.91	100.50
1930	1446	103,097.10	71.30	92.30	100.82
1931	1514	105,451.74	69.65	93.11	100.38
1932	1550*	101,341.07	65.38		

* estimated.

The peak of school costs on the unit basis was reached in Chelmsford in 1922, when it was \$83.75. Since that time the trend has been downward, to \$69.65 in 1931, and to about \$65.38 in 1932. In the 83 towns of group II (towns over 5000) and in the state, costs increased up to 1931. Had Chelmsford spent on each child in school in 1931 what the towns of group II spent in that year, our schools would have cost approximately \$141,000 instead of \$105,452. The statistics show beyond the shadow of a doubt that extreme economy has been practiced in the operation of the local schools. There are just ten towns in the entire state which show a lower unit cost for 1931. In normal times I would use these same figures as an argument for giving the children of Chelmsford educational opportunities they do not now have. In these days of heavy tax burdens they are presented to establish the fact that we are already down to the danger line: any further diminution in financial support will inevitably seriously damage the whole school structure.

A study of the local valuation, appropriations, tax rate, etc. of ten years ago as compared with the present is enlightening. If you will take the report of 1922 from your files you will find that the town's assessed valuation was \$6,707,940; appropriations for town government at regular and special meetings \$179,147.97; and the tax rate \$34.00 per \$1000. Appropriations for support of schools and for improvements on buildings and grounds amounted to \$96,875, which was 54 per cent of the total sum appropriated. The high school employed nine teachers for 184 students, a teacher for every 20 students. The elementary schools had 1090 pupils and 32 teachers, a teacher for every 34 pupils. There were two supervisors, for music and for drawing.

In 1932 the valuation of the town was \$6,606,090; appropriations at the regular and special town meetings amounted to \$248,034.32; the tax rate was \$35.80 per \$1000. Appropriations for school amounted to \$104,100, which was 42 per cent of the total for all purposes. There were 12 teachers employed in the High school for 376 students, a teacher for every 31. In the grades there were 1258 pupils and 36 teachers, a teacher for every 35 pupils. One supervisor was employed, for music.

One other table of costs is given in order to show how the different items in our school budget compare with those in the towns of 5000 population (group II) and in the state. Read the table as follows: The cost of administration, the overhead cost, in Chelmsford for the year ending June 30, 1932 was \$4,340.61, making the cost per pupil \$2.87. In towns of group II the cost was \$3.22 and in the state \$3.78.

	Total Cost	Cost per pupil	Group II.	State
Administration	\$ 4,340.61	\$ 2.87	\$ 3.22	\$ 3.78
Teachers	64,983.98	42.92	63.69	69.89
Textbooks and supplies	4,474.31	2.96	4.36	4.22
Operation	13,935.66	9.20	10.22	10.48
Repairs	3,761.68	2.48	2.90	4.58
Libraries	136.50	.09	.15	.12
Health	2,349.00	1.55	1.51	1.61
Transportation	9,014.90	5.95	3.36	2.66
Miscellaneous	439.68	.30	1.32	1.85
Total	\$ 103,436.32	\$ 68.31	\$ 90.73	\$ 99.19

In this last table note that the particular items in which costs are strikingly low in Chelmsford are those included under instruction. Both in the salaries paid teachers and in the expenditure for textbooks, paper, pencils, laboratory supplies, etc. our unit costs are very decidedly below the average of towns in our class and of the state. In addition to this, it should be noted that since last August the contributions of teachers and superintendent to the town's Welfare Department have amounted to \$1294.18. The school physicians contributed \$45.00. A downward revision of salary schedules is being made in a number of cities and towns, either by actual cutting of salaries or by requiring that teachers contribute. The average cost of teaching on a unit basis, as shown above, is over 50 per cent more in the towns of group II and in the state than the cost in Chelmsford. In most of the communities in which cuts are being made in teachers' salaries, the five or ten or even twenty per cent deduction can be made and the salaries still remain larger than our teachers now receive.

The only way to improve schools is to bring about improvement in teaching service and in teaching conditions. In the endeavor to better service the superintendents of the wealthier towns and cities are constantly on the search for successful teachers as candidates for positions in their school systems. Here is where a low schedule of salaries works injury to a town. In the long run teaching service will suffer if schedules are not maintained on a par with other places of the same class. Last summer, owing to consolidations being effected everywhere, very few positions were open. We lost only one teacher to another town, Miss Walter going to Melrose. In normal times we may expect to lose from five to ten each year in this way. Two other resignations were received, Miss Buckley, who had taught since 1926 at Highland Ave. and the McFarlin School, resigning to be married, and Miss Dewire, at Princeton St. and Highland Ave., since 1921, because of ill health.

For the French position Miss Dorothy Gay, a graduate of Wheaton in 1932, was engaged. Miss Trefry was transferred from Westlands to McFarlin School. Miss Gertrude P. Henderson was engaged for the 1st and 2nd grade room at Highland Ave., and Mrs. Charlotte K. Duffy for the 3d and 4th grades at the Westlands. Both are graduates of Lowell State Teachers College, and both had been employed as substitute teachers last

year. Mrs. Duffy had had two years of experience in Chelmsford previous to 1927. Miss May D. Sleeper, who had taught at Princeton St., since 1907, was out most of last year because of ill health, and her leave of absence was extended last September. Miss Ann G. Murphy, a graduate of Lowell in 1931, has been acting as substitute.

Tribute should be paid the teachers for carrying on this year under adverse conditions without the slightest loss in morale. Although in the entire town on October 1st there was an elementary teacher for every 35 pupils, the fact remains that some rooms were very badly crowded. It is impossible to distribute pupils evenly either by grades or by buildings. On October 1st there were eight rooms which had from 40 to 46 pupils each. In one room at the Westlands and in one at McFarlin extra chair desks were set into the rooms until literally there was not room for one single pupil more in either room.

In the High School conditions are extremely bad because of the crowding in of many more students than the building was designed to accommodate. In several particulars state recommendations regarding seating are disregarded in order to get in enough desks for the present student body. For assemblies the school goes into the basement of the McFarlin School, and Mr. Burns meets one of his classes there each day. On October 1st there were 376 students in membership, including 19 post-graduates, but during the fall term the total number registered was 397, and the present membership is 379. Present indications are that the school will be larger next year. The class to be graduated in June is smaller than the class of 1932, and the 8th grades have 30 pupils more than a year ago. At least one additional teacher and the use for full time of at least one room in the McFarlin School would seem to be necessary next September. I refer you to the report of the Principal for details of lessened efficiency in the school due to too large classes and crowded rooms. The improvement of teaching conditions, as a factor making toward better schools, is a matter which cannot long be put off in Chelmsford.

The various scout troupes and the 4-H clubs have continued their excellent service to many of the school pupils. I regret that it is not possible to offer to all boys and girls of Chelmsford the valuable training these organizations give. So far as possible without conflicting with school work the facilities of school buildings have been placed at their disposal. The scout leaders and leaders of the 4-H clubs merit hearty commendation from the community for the time and effort and interest they give. Miss Hopkins, Assistant County Club Agent gives this report.

There were 312 girls and boys enrolled in 4-H Club work in garden, canning, poultry, clothing, handicraft, food and health clubs. Perley W. Kimball served as 4-H Club chairman, and the following served as local leaders: Mrs. E. D. Harris, Mrs. Ernest Ferron, Mrs. Joshua Machon, Mrs. R. P. Kidder, Mrs. E. T. Burbeck, Mrs Vivian Jackson, Mrs, Robert Barris, Mrs. Ralph Finch, Mrs Emil Anderson, Mrs James Taylor, Miss Betty Long, John Rikkola, Marcus Johnson, Martin Bergsten, Edwin Rikkola, Dewey Fish, Edwin Eriksen, John Daughraty, Sidney Dupee, Charles House, John Cassidy, Bayard Dean, Thaddeus Ducharme and Lucien Ducharme.

Mrs. Harris, Mrs. Machon, and Mr. John Rikkola attended the leaders' Camp during Camp Gilbert at the Massachusetts State College.

Arlene Corr, Irene Cox, Myrtle Ferron, Yvonne Crawford, and Charles Merrill were awarded a two-day trip to Amherst for good project work.

Several of the Chelmsford clubs attended and took part in the County Rally at Concord.

Julia Koulas was given the honor of being State delegate to Camp Gilbert on the merits of her garden work.

Phyllis Welsh won a red ribbon at the State Health Contest in Worcester.

The Wide-Awake Workers' Sewing Club, under the leadership of Mrs. R. P. Kidder and Mrs. E. T. Burbeck, had the distinction of having five boys enrolled as members. The Chelmsford Center clubs displayed their exhibits of clothing, handicraft and poultry, in a local store window. The South Chelmsford club gave a delightful evening's program with its display of exhibits, having Mr. George L. Farley, State Club Leader, as guest speaker of the evening. The East Chelmsford clubs also had an exhibit and program in connection with a P.T.A. meeting. The North Chelmsford garden club (John Cassidy, leader) had a most attractive window display of vegetables. A Mother's Day program, with Minstrel entertainment, was given by the Westlands clothing club, under the leadership of Mrs. Vivian Jackson.

Several prizes in the Middlesex North Garden Contest went to Chelmsford boys. John Cassidy and Julia Koulas participated in the vegetable judging contest at Brockton Fair. The West Chelmsford canning club (leaders, Mrs. Emil Anderson and Mrs. James Taylor) were awarded second prize at Groton Fair for their canning exhibit.

With its score of able and enthusiastic townspeople acting as local leaders, Chelmsford has had a good record of completions and has maintained a satisfactory standard of club work.

The number of children transported has increased each year, without adding any bus stops nearer the schools. The greatest increase this year is in the number of High School students from West Chelmsford and North, the number rising from 149 to 166. In all the schools the number transported this year is about 580.

Four teachers were in attendance at summer schools: Mr. Knightly at Harvard, Miss Perry at Fitchburg Teachers College, Miss McTeague at Boston University, and Mr. Hilyard at Bates. A number are taking afternoon work, or Saturday morning work, either in Lowell or Boston.

We have had again this year the service of cadet teachers from Lowell State Teachers College, four during the fall term and three at this time. The Town is receiving valuable assistance in several classrooms by means of this arrangement, and every effort is made to meet the conditions required by the College in order that the service may be continued year after year.

Previous reports have outlined plans for offering better educational opportunities to the children of Chelmsford. In this period when costs

must be kept down these plans are necessarily held in abeyance. Our task at this hour is so to administer the funds voted by the tax-payers as to secure for the boys and girls the greatest possible benefit therefrom. It would be idle to hold that school opportunities in Chelmsford have not been curtailed during the last few years. The physical education program has been suspended, as was the special department of drawing at an earlier date; minimum and maximum salaries for new teachers have been reduced, making Chelmsford somewhat less attractive to ambitious teachers; rooms are so crowded that the best teaching results cannot be obtained; classes in the High School have been made larger, and subjects in which classes were small have been given up temporarily. No one has desired to have these economies made at the expense of the schools, but a shrinking valuation and a rising tax rate have compelled such action. The tasks of school committees in determining school policies, and of superintendents in executing the policies adopted, are difficult ones in times like these. We have received cordial support from the parent-teacher associations and in the main from the body of citizens, the large majority of whom appreciate the difficulties of the present situation. The attitude of the teachers has been commendable in the extreme; they have accepted the situation as inevitable, have practiced economy in the use of all school supplies and equipment, and have used the economic crisis as an opportunity for teaching in their classrooms, the evils of extravagance.

Students from commercial classes have assisted in clerical work in the superintendent's office, as has been done for several years. Appreciation for these services is expressed, and also in behalf of both students and teachers for the aid received from the Lions' Club, the Parent-Teachers, and the leaders of scout and club work. I commend you, the members of the School Committee, for your earnest and thoughtful attention to school problems, and in behalf of all in the school department thank you for your loyal support.

Respectfully submitted,

GEORGE S. WRIGHT.

REPORT OF HIGH SCHOOL PRINCIPAL

Mr. George S. Wright,
Superintendent of Schools,
Chelmsford, Massachusetts.

My dear Mr. Wright:

As principal of Chelmsford High School, I herewith submit my third annual report. The main object of this report is to acquaint the public with the high school situation. I hope that those who read it will thereby become more interested than ever before and make a personal visit to the school.

On January 3, 1933, there were 107 freshmen, 99 sophomores, 86 juniors, 69 seniors, and 18 post-graduates, a total of 379 enrolled; beside this number 18 have left school, making a grand total of 397 pupils who have been enrolled this school year. This is an increase of 42 over the enrollment of one year ago and an increase of 87 over the enrollment of two years ago. The present enrollment exceeds the intended pupil capacity of the building by more than 68 per cent. One reason for this large increase is the fact that there have been 40 pupils enrolled this year that were not enrolled in the Chelmsford schools last year. The large class of post-graduates is also partly responsible for the large enrollment. As there are about 30 more eighth grade pupils this year than last and next year's graduating class is 17 larger than this year's, a conservative estimate of the enrollment one year hence is 430 pupils. At the present rate of increase the enrollment will be more than double the pupil capacity of the building by January 1935.

There are but three classrooms in the building that were designed for more than 25 pupils. There are 8 classes of less than 20 pupils, 7 classes of between 20 and 25 pupils, 16 classes between 25 and 30, 14 classes between 30 and 35, 9 classes between 35 and 40, and two classes of over 40 pupils. Extra desks and chairs have been put into the classrooms to take care of the extra large classes. The McFarlin School has to be used for one class of 21 pupils each day. This means a loss of time for actual classroom work as pupils have to take time to get rubbers and coats before going to the other building. The McFarlin basement is used for assemblies as there is no room large enough to seat the entire school in the high school building.

The teachers have teaching loads of 174, 170, 159, 157, 157, 155, 152, 144, 135, and 121 pupils a day. The commercial classes are over crowded more than the college preparation classes. If pupils could be assigned classes irrespective of their own interests a much more even teaching load could be planned. Every indication points toward the necessity of an extra teacher for the commercial department next school year. This department is working under crowded conditions which handicap the efficiency of the work very much. The class in trigonometry was dropped for this year because of the small number electing the course, and the need of the teacher in another subject.

The locker rooms are very much crowded at recess times, especially on cold and stormy days. The lockers are inadequate in number and condi-

tion. The toilet room accommodations are far from satisfactory at recess time because there are no toilets on the basement floor and those on the main floor are far too small to accommodate the large number of people during the short time at recess.

The members of the athletic squads are the only pupils receiving physical education at the present time. These squads are being handled very well by two men and two women teachers. Class games in basketball are held for boys and girls not on the varsity squads. Owing to the large number of pupils taking part in athletics and the cost of replacing worn out equipment, the task of financing athletics has been very difficult. The entire cost of equipment, officials, and the transportation for the athletic teams has to be met by revenue taken in at the games and the Athletic Association dues. Mr. Marinel and the athletic officials have co-operated with us in trying to keep the expense within what we can pay. Dr. Varney and the Lions Club sponsored a "Booster Day" this year at the Varney Playground, which netted \$199.00 for the Athletic Association.

With the large classes, heavy teaching loads, and crowded conditions the teachers do not have as much time with each individual as they would have under normal conditions. The question of discipline is also more difficult. About the only way that each pupil can get the education and training he deserves is to eliminate those pupils from school who do not make an honest effort both in class work and citizenship. It is not fair, in times like these, if it is at any time, to allow pupils who do not try to get their lessons, or those who do not conduct themselves properly, to take the time of the teachers that should be given to pupils who desire to learn. Vocational courses would help solve many of the present difficult problems in class work and citizenship. If vocational courses were ever needed they are needed now when many pupils are in school because there is nothing else for them to do. They are little interested in any work the high school has to offer them, hence they are dissatisfied and more or less unruly.

It is not my intention in this report to find fault but to merely state the facts as they are here in your high school.

Following is a report of the school funds by our vice principal, Miss McCarthy, who has charge of all school funds so called:

LUCIAN H. BURNS.

REPORT OF MUSIC SUPERVISOR

Chelmsford, Massachusetts
January 5, 1933.

Mr. George S. Wright,
Superintendent of Schools,
Chelmsford, Massachusetts.

Dear Sir:

My aim in the teaching of public school music is music appreciation. Children can be taught to know and appreciate good music, from the simple note-song to the higher forms of vocal and instrumental music. In order to do this, the child must know certain musical technicalities, but the need has arisen, and the child understands the necessity of learning these technicalities.

In the High School, classes meet twice a week. One period is devoted to chorus work and the other to music appreciation. One class hears the Damrosch Appreciation course, and the other class has a standard course presented to them, and notebooks are kept in both classes.

There is a splendid orchestra in the High School this year. There are six violins, one saxophone, one clarinet, one trombone, four trumpets, a snare drum, and piano. The orchestra meets once a week for an hour's rehearsal, and it has performed for High School assemblies, and operetta productions.

This year an operetta was given in the McFarlin School and was very successful. May I take this opportunity to thank all parents and children who helped to make it a success.

I wish to thank every teacher for his or her co-operation.

Respectfully submitted,

CHARLOTTE L. HYDE.

REPORT OF SCHOOL NURSE

Mr. George S. Wright,

May Health Day was observed in all schools. Following the children's part in the program physically fit and improvement tags were awarded.

Vaccinations have been very well taken care of. Only two children have certificates for exemption from vaccination.

Schick test was given in May to all children who were immunized in October, 1931. Only 14 were found to be positive. Those fourteen were re-immunized in October, 1932. We immunized 153 pupils, 33 pre-school children, one mother and one teacher.

The results of the follow-up clinic by the Department of Public Health, Division of Tuberculosis showed a great improvement of the 28 school pupils and 3 out-of-school children examined. This clinic consisted of x-rays and physical examinations. Dr. McCarthy and Miss Le May from the State Dept., conducted the examinations. Miss Le May gave the children valuable advice concerning nutrition and personal hygiene.

Pre-school clinics were held in May. It was a big success because many defects found were corrected before the children entered in September.

When a classroom is exposed to any contagious disease, all pupils are examined by the school physicians and daily examined by the nurse until the danger is past. All desks, school books, and library books are taken care of.

I have a Senior Health Club. Meetings are held every week. The girls are working hard in carrying out plans which benefit the entire community. They sponsored a banquet for the boys at the end of the football season.

The Parent Teacher Association took charge of the McFarlin School lunch room last September which is now self-supporting. Free lunches were served, which included 304 bowls of soup, 80 sandwiches, 285 cups of cocoa, 3 dinners and 239 bottles of milk.

Hot lunches are served in the Princeton School. Hot soups and cocoa are served in the Quessy and East Chelmsford Schools. Many of the other children are able to go home for lunch.

The Parent Teacher Association and the Lions Club made it possible for several children to wear glasses. The Parent Teacher Association helps to pay the dentist and assists in many ways.

I wish to thank the school physicians, Dr. Varney and Dr. Scoboria, for their frequent visits to the schools, advice, and help to pupils and their wonderful co-operation in anything pertaining to the welfare of the child.

I also thank Mr. Wright, School Committee, Parents, Teachers, Churches, different organizations and the pupils for the excellent co-operation.

Respectfully submitted,

(Mrs.) MAE S. LEWIS, R.N.
